Day 3: Reykjavik - Golden Circle - Lava Exhibition Centre - Vik

Travel the incredible Golden Circle, a route that encompasses many of Iceland's most renowned natural wonders. Journey to Thingvellir National Park, the nation's most historic area, where Icelanders gathered in A.D. 930 and established what is considered one of the world's first parliaments. Find yourself standing upon one of the globe's most geologically significant landscapes, Thingvellir's rugged rift valley. This UNESCO World Heritage site marks the point where the North American and Eurasian tectonic plates meet. Experience the eruptive energy of the Icelandic landscape with a stop at the geothermal fields of Geysir and Strokkur. Then, marvel at the beauty of the Gullfoss (Golden Falls) waterfall, a stunning 100-foot double cascade. Next, stop at the Lava Exhibition Centre to learn about Iceland's historic eruptions and current lava flows that make the island a showcase of volcanism. Continue southeast to Vik, the southernmost village in Iceland, surrounded by beautiful valleys, beaches, cliffs and mountains. For each

of your three nights in Vík, weather permitting, you'll set out into the peace and stillness of rural Iceland in search of the elusive northern lights.* On foot, or with the assistance of our motor coach and driver, you will venture out away from the light pollution to where the views of the sky are ideal. Three nights of searching means three times the likelihood that you'll find this incredible natural light show.*
